Otherwise the (I) grade will automatically become an (FF). In the case of prolonged illness and similar situations, this the period can be extended until the beginning of registration for the next semester on the recommendation of the Head of Department and approval of the Faculty Executive Council.

(P) Grade is given to the students who are making progress in the courses which carry over for more than one semester.

The grade (S) is also given to the students who have transferred from other Universities or re-registered to the University through the entrance examination conducted by Student Selection and Placement Center, and when these courses are approved as equivalents by the Faculty or School of Higher Education or Vocational Training School Executive Council on the recommendation of the Head of the Department. The (S) grade cannot be given to the student who has transferred, and who is required to repeat a course under the regulations. The (S) grade is not included in computing the grade averages.

(U) Grade is given to the students who are not successful in non-credit courses.

(W) Grade is issued if a student withdraws from a course after the add/drop period within the first 7 weeks of the semester on the recommendation of her/his advisor and with the permission of the Head of the Department, and also with the decision of the School Executive Council concerned.
